The trouble started when Mr. Howell tried to get through a resolution designed to better fix the responsibility for water bills to cases where tenants or owners change tocations and leave unpuid water tills accrued at old locations.

The Way it is Read. This reads to me as if you are holding the owner as well as the tenant at the new location for water bills of another location. I do not agree to this," declared Mr. Wend.

Then Mr. Howell said he had brough this resolution before the board on three casions and he believed action should be taken. Mr. Wend came back with the relolader that this was the first time the resolution had been formally offered and he inmeted that he wanted time to give it oareful examination.
